

LKE FUTURE, LLC
Strengthening Communities Through Quality, Stable Housing

Partnership Proposal: Integrated Services for Veteran Stability & Transitional Housing

Prepared by: LaShonda Edwards

EXECUTIVE SUMMARY

LKE Future, LLC seeks to establish strategic partnerships with nonprofit organizations and government agencies serving veterans, chronically homeless individuals, and other vulnerable populations. We propose to serve as a high-quality, reliable extension of the continuum of care—providing case management support and strong referral coordination that strengthens existing veteran housing initiatives and homeless services.

Our mission is to empower individuals to realize their full potential by providing transformative services, resources, and support that inspire growth, resilience, and purpose. For veterans and chronically homeless individuals transitioning to stable housing, we combine quality, affordable housing with wraparound support services to ensure lasting stability and successful community integration.

LKE Future operates under VA Grant and Per Diem (GPD) funding and other homeless services funding streams. We coordinate seamlessly with partner organizations, VA Medical Centers, Coordinated Entry Systems (CES), and homeless service providers to receive vetted referrals—ensuring full compliance with program standards while providing high-quality residential care and transitional support on-site.

Beyond direct housing operations, LKE Future provides specialized support services for partner residential care facilities seeking to enhance service delivery without expanding internal staff. This dual service model positions LKE Future as both a direct service provider and a reliable support services partner for the broader residential care community serving veterans, chronically homeless individuals, and other vulnerable populations.

ABOUT LKE FUTURE

LKE Future, LLC is committed to strengthening communities through quality, stable housing. We expand our portfolio with thoughtfully repaired, upgraded, and enhanced properties—without increasing costs for residents. We believe in creating sustainable homes that uplift residents while investing in long-term community vitality.

Beyond housing, we are scaling into employment opportunities, skilled trades development, and construction contracting. By investing in people as well as properties, we strengthen local economies, provide sustainable career pathways, and ensure our growth benefits both residents and the wider community.

For veterans specifically, we recognize that stable, quality housing is foundational—but it is never sufficient alone. Veterans transitioning from military service face unique challenges: reintegration stress, potential service-related disabilities, employment gaps, and social isolation. LKE Future addresses this reality by embedding supportive services directly within our housing model.

OUR PARTNERSHIP VISION: THE CONTINUUM OF CARE

We do not propose to operate in a silo. Instead, LKE Future seeks to align operations with local veteran service needs and establish strong referral and support channels. Our partnership model operates on three integrated pillars:

1. SERVICE PROVISION: On-Site Case Management Support

LKE Future serves as a dedicated case management and residential service provider within partner housing properties. Our team develops individualized service plans, coordinates with local community resources, and maintains ongoing support to ensure residents succeed in stable housing. This lightens the administrative burden on partner organizations while ensuring quality, consistent service delivery.

2. REFERRAL PARTNERSHIPS: Strengthening the Ecosystem

LKE Future operates as a trusted referral partner and resource hub within the local continuum of care. We coordinate directly with regional housing authorities, VA entities, and community partner agencies to receive referred candidates for LKE Future housing programs. This reciprocal relationship ensures veterans access comprehensive services regardless of which organization serves as their initial point of contact.

3. HOUSING + SUPPORT SERVICES: Integrated Stability

Where feasible, LKE Future operates housing with embedded service delivery. Residents benefit from quality, stable housing, comprehensive case management support, access to employment opportunities, and strong community connections—all coordinated under one roof. This integrated model reduces administrative friction and improves long-term outcomes for residents.

LKE FUTURE'S CORE CAPABILITIES

Housing Onboarding & Resident Orientation: Professional onboarding and orientation focused on housing stability, service needs, and personal goals. Our team facilitates smooth transitions into housing, establishes supportive relationships, and gathers essential information to inform effective service planning.

Case Management & Support Coordination: Ongoing relationship management, service plan development, progress monitoring, and coordination with community partners (VA, mental health providers, employment services, education programs, etc.). We maintain detailed documentation and track measurable outcomes.

Trauma-Informed & Culturally Competent Service Delivery: Our team understands military culture, service-related challenges, and the complexity of reintegration. We serve veterans with respect, dignity, and awareness of trauma's impact on housing stability.

Community Partnership & Referral Network: We actively build relationships with VA medical centers, veteran service organizations, employment agencies, and educational institutions. Our referral network ensures residents access comprehensive resources.

MEET OUR LEADERSHIP: LASHONDA EDWARDS

LaShonda brings over five years of dedicated experience in human services, with specialized expertise in intake assessment, case management, residential services, and working with vulnerable populations. Her background includes:

Court Designated Worker: Managed caseloads of 50+ youth, overseeing implementation of court-ordered services, making appropriate community referrals, conducting comprehensive screening assessments, and planning individualized interventions while ensuring each individual received necessary support.

Residential Supervisor for Adults with Disabilities: Provided direct oversight of residential services, demonstrating strong decision-making abilities when evaluating complex cases objectively and without bias. Coordinated services, supported staff, and helped ensure residents received appropriate care in a safe and structured environment.

Education & Business Administration: LaShonda holds an Associate's Degree in Business Administration, strengthening her ability to manage administrative responsibilities, organizational operations, budgeting, documentation, and program coordination. This educational background complements her hands-on experience in human services and residential program oversight.

Professional Strengths: LaShonda excels in intake and organizational skills, communication with clients and families, service coordination, confidentiality management, documentation, and team collaboration. She is a skilled communicator who navigates complex situations sensitively while maintaining professional boundaries and ensuring the best possible outcomes for those she serves.

Why This Matters for Veterans: LaShonda's experience managing complex cases, building strong client relationships, and coordinating across service systems translates directly to veteran support. Her human-services experience, residential leadership background, and Associate's Degree in Business Administration provide a well-rounded foundation for managing both the people-centered and operational aspects of a residential veterans' program. She understands how to work with individuals facing multiple barriers, coordinate appropriate resources, maintain professional boundaries, and keep each veteran at the center of individualized service planning.

HOW WE SERVE YOUR MISSION

For Nonprofit Veteran Service Organizations:

We extend your capacity without diluting your focus. Partner with LKE Future for integrated housing support or refer housing-seeking veterans to us while maintaining your existing support relationships. We manage the physical and operational aspects of housing so your organization can focus on its core mission. Our responsibilities include maintaining properties in accordance with applicable Housing Quality Standards (HQS) or habitability standards, coordinating property maintenance such as pest control and repairs, managing utilities, providing on-site supervision when applicable, and submitting monthly occupancy reports. We're a complement, not a competitor.

OUR FOCUS: DELAWARE COUNTY & BEYOND

LKE Future commits to being a high-quality, reliable extension of the continuum of care in Delaware County. We will:

- Maintain strong relationships with local veteran organizations, government agencies, and housing programs
- Conduct regular communication to align services and identify emerging needs
- Prioritize local hiring and partnership with community-based organizations
- Measure and share outcomes to demonstrate impact on veteran stability and wellbeing
- Provide rapid building maintenance and quick unit turnovers for emergency shelter operations
- Deliver professional property management tailored for scattered-site housing units

NEXT STEPS

We invite you to explore partnership opportunities with LKE Future. We recommend:

- Schedule an initial conversation to discuss your organization's needs and how LKE Future can support your mission
- Explore specific partnership structures (service provision, referral network, integrated housing)
- Identify pilot opportunities to demonstrate value and build trust

LKE Future is ready to partner. Together, we can build a stronger continuum of care that honors veteran service while supporting lasting stability.
